

## PROJECT TITLE : HAWAI JAHAJ

### ABSTRACT :

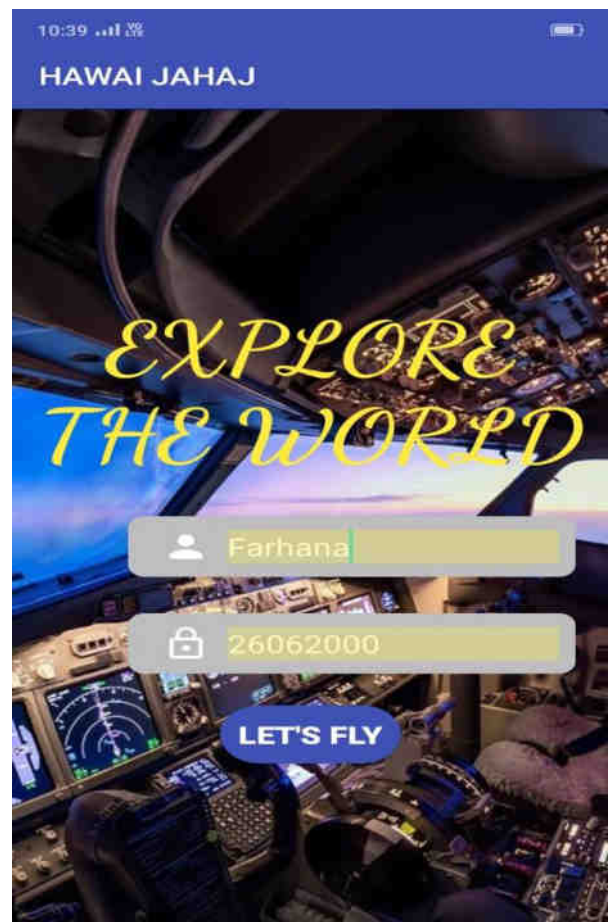

The world is becoming technology driven and we are living in an era of Internet. Consumers nowadays prefer a digital flight booking in their Smartphone rather than standing on a line. **"HAWAI JAHAJ"** is an android application which allows avid travelers to gain access to flight booking online. This android application allows the user requested to register with an email address and a password. This application aims to provide travelers to reach their destination as they want. The class booking section has generally divided into four categories (e.g. Economic, Premium Economic, Business Class and First Class).
