PROJECT TITTLE :SCIENTIFIC CALCULATER
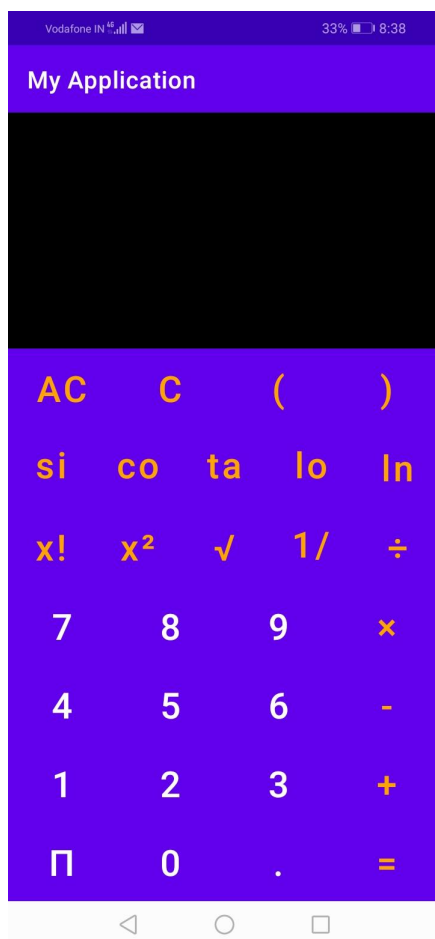

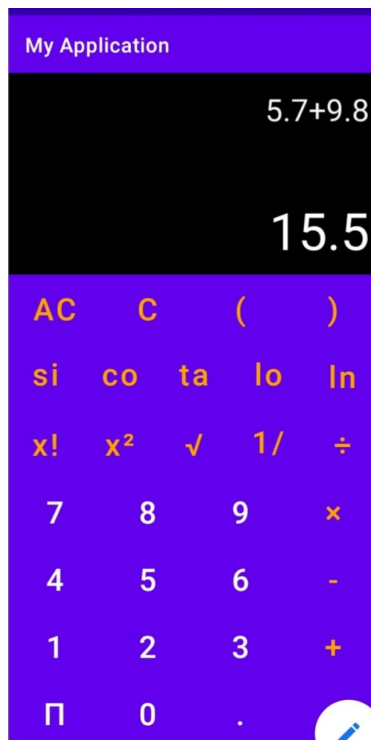

ABSTRACT :

A **Scientific Calculator** is useful for situations where we need to calculate some complex things like logs or trigonometry. So therefore, we are here to develop a **Scientific Calculator**. This **calculator** will have the following. First, it will have a screen to display the user inputs and by default, it will display a "0".

Scientific Calculator Free is a powerful and comprehensive **calculator** that can help you solve both simple and advanced math operations. ... The best thing about this **app** is that its interface is designed to look like a real **calculator**, making it intuitive to use.
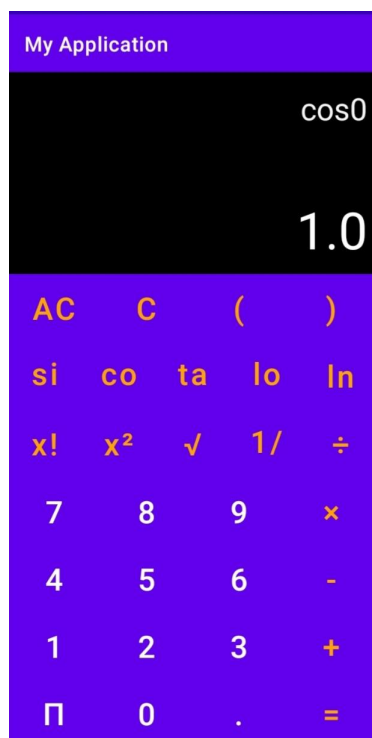

MAIN ACTIVITY :

NORMAL CALCULATER :

TRANSFORMATION CALCULATER :

SCIENTIFIC CALCULATER :

SQUARE CALCULATION:

LOG CALCULATION:

My Application

log0

-Infinity

AC	C	(	)
si	co	ta	lo	In
x!	x²	√	1/	÷
7	8	9	×
4	5	6	-
1	2	3	+
Π	0	.	=
