

## **PROJECT TITLE:**

**SMS**

APP

### **ABSTRACT:**

“SMSAPP” Stands for short message service and is also commonly referred to as “TEXT MESSAGE”. With an SMS app, you can send a message of up to 160 characters to another device. Longer messages will automatically be split into several parts. Most mobile phones support this type of text messages. My app “SMS APP” will send SMS from one device to another device....

### **SCREENSHOT LAYOUT:**

### **MAIN ACTIVITY**

## SMS APP

Enter a passcode of 4 digits
