

EBOOK APP

ABSTRACT

The world is becoming technology driven and we are living in an era of Internet. Consumers nowadays prefer a digital version in their Smartphone than holding a heavy book. EBook is an android application which allows students and teachers to gain access to text books offline. This is an easy-to-use application which contains textbooks of higher secondary school students. It even contains the grammar pdfs for language subjects and formula pdfs for main subjects. Books are categorised according to the subject name. And what is more interesting is that eBook is available offline too.. This application aims to provide students, an easy access to offline textbooks.
