MUSIC MART

ABSTRACT:

     "MUSIC MART" is an Android Application for all the Musical Instruments like Drums, Piano, Guitar, Flute, etc. This project delivers the online shopping application. The Shopping cart is the process where the users can directly buy goods in real time. The users can buy their musical needs using this app. This project is a form of E-Commerce. Selected products can be added to the cart and can be purchased. It can be widely used across nation. It will be more helpful to the music industry. This application is developed by using Java and XML languages using Android Studio.
