EDUCATION APP

ABSTRACT CLASS

This is a education app .The education has undergone a huge transformation. With the arrival of apps, learning become easily accessible. This app is also like that only. It is for 3 years kids to learn about fruits and vegetables. It has login page and layer of mixed fruits and vegetables page to know which one we want to choose that and go through that for see more images of fruits and vegetable's. It was a simple app to learn.From this app we know what types of fruits is there with images .From this kids are more involved to know about fruits and vegetables .It was also usefull to nursury teachers.This also build a communication with parents and kids and also for teachers and kids .
