

# **KITCHEN MART**

## **ABSTRACT**

**Now a days the life style of the people is different. People feel uncomfortable and time consuming for going crowded market. So, E-shopping is a boon as it saves lot of time. Online shopping is a process whereby consumers directly buy goods, services etc. from a seller without an intermediary service over Internet. This project “KITCHEN MART” shopping kitchen accessories. Products such as cookware set, cutting tools, dinner set etc. are available in this app. Here we have all kinds of brands and a variety of kitchen accessories products are also available. This app saves our time and we can buy your needs easily. This application was developed using java and XML languages in android studio.**
