

PARK INN

ABSTRACT

Many people travel a lot and really enjoy travelling. Hotel apps provide quick access to any information, such as photo gallery of hotel rooms, list of services, easy and convenient reservation etc. and make a journey more convenient. It is helpful for those people who are looking for a hotel. For the hotel owners they are also very beneficial, because they attract new guests and increase the number of regular clients. The app provides hotel description, description of available rooms with photos and services. Hotel mobile apps were developed in order to make our life easier. Before making a choice, travellers need a close-up of the hotel room. The app offers an overview, photo gallery. It also presents the restaurant menu and offer a table, spa treatments, additional hotel services such as Meeting facilities, Free Wi-Fi, Room service etc.,
