

PROJECT TITLE: CAKEYY ZONE

ABSTRACT

The “Cake Ordering System (COS)” operation is focused on ordering and distributing the cake for each customer. A specific order number will be issued to each customer. As soon as the name and contact information of the customer are applied for comparison. Next, the cake is picked and, if necessary, the stuffing sort is also added. If the user likes a product he may add it to his shopping cart. He may even pay through a debit card, credit card or cash on delivery. Cake Order Shopping Online – Android App
In future the internet become whole and soul to the business fields, each and every trades are going to be done through it so this portal may helpful to the women as a business person in this running world...
