

# SARAH QURAN TUTORS

## ABSTRACT:

Students are the future and the teachers are what makes them. Everything we do is focussed on how to best serve the interests of students and teachers. This app connects the students who are in need of Islamic Knowledge and the Teachers who are ready to spread Islam. It helps the students who were not able to go out to learn Quran because of Non Mahrams everywhere. Here this app is a platform where the teachers and students can login. The students can search a suitable teacher for them and have the classes at discussed time and place. And the teachers can create their profile and submit their details for the students to search them. They can even record their Quran recitation through this app. This app also has many other features like About Us, Share, Audio and Rate Us.
