

PROJECT TITLE: QUIZZY

ABSTRACT

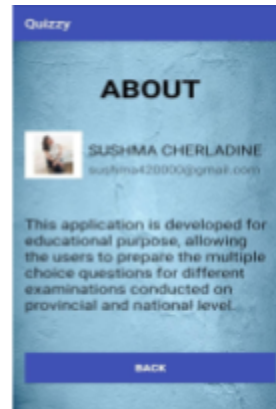

The world is becoming technology-driven and we are living in an era of the Internet. Consumers nowadays prefer a digital version in their Smartphone than holding a heavy book. Quizzy is an android application that allows students to play quizzes via the app. This is an easy-to-use application that contains multiple choice questions to learn and play with programming languages. Every question has multiple choice questions and plays with the programming knowledge. At the end of the quiz, you can finally view the score of your performance. And what is more interesting is that Quizzy is available offline too. This android application allows the user requested to enter the name and start the quiz. And it will not request any personal information like EMAIL or DOB.
